Professional Summary

Results-oriented Full Stack Developer (Computer Science, 2025) with a track record of architecting and deploying complete production systems. Proven ability to take ownership of entire product lifecycles, from database schema design and RESTful API development to responsive frontend engineering and production deployment. Dedicated to building performant and scalable web applications.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python

Frontend: React.js, Next.js, Tailwind CSS, HTML5/CSS3, Framer Motion, UI/UX Design

Backend: Node.js, Express.js, RESTful APIs, FastAPI, Authentication Systems

Databases: MongoDB, Mongoose, Data Modeling, Schema Design

DevOps & Tools: Git, GitHub, DNS Configuration, Postman, Vercel/Render

Data & AI: NumPy, Pandas, LLM/Generative AI Integration

Experience

Freelance Full Stack Developer

Self-Employed

Apr 2026 – Present

Remote

- Architected and deployed a production-ready MERN stack e-commerce platform (gawandekrushikendra.store) on a custom domain, taking full ownership from database design to server configuration.
- Engineered secure user authentication flows and role-based access control (RBAC) for the internal admin dashboard, enhancing application security.
- Designed highly scalable MongoDB schemas for dynamic product inventory and order management, exposed via optimized RESTful APIs.
- Managed end-to-end production deployment operations, including environment variable security, database provisioning, and DNS record routing.

Key Projects

Cafe Landing Page | React.js, Tailwind CSS, Framer Motion

2026

- Designed and engineered a fully responsive, visually engaging landing page (cafe-hide-out.vercel.app) optimized for high conversion rates and mobile performance.
- Developed a modular and reusable React component architecture to accelerate future feature additions.
- Increased client online visibility through modern UI/UX design patterns, clear calls-to-action (CTAs), and optimized static asset loading.

Education

NKSPT Pathrikar College

Bachelor of Computer Science

Jalna, Maharashtra

Graduated: 2025

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Software Engineering.
